reach a million dollars each in annual revenue and beyond, thereby creating a trillion dollars in global GDP and ten million jobs.

Let's Get Hired (LGH) Initiatives

Intern

April 2018 - June 2018 (3 months)

LGH Initiatives is a not-for-profit initiative with a two-fold agenda:

Women Empowerment:

The first and the foremost intent is to ensure women empowerment by the way of offering an opportunity to the women to make a come-back and re-start their careers as we support, guide and direct them to re-enter the formal employment. The intention is to help find opportunities for those women (be it housewives, divorces, widowed, a single mother, or any other special case) who have lost track of their careers and wish to re-enter the mainstream job market and seriously wish to re-ignite and re-start their careers.

Career Resynchronization

The second call for action is to help and support people in coming out of the clutches of unemployment, poverty, social evils and a bad-quality life. This is not only limited to people seeking rehabilitation but shall also act as a bridge for those undergoing depression to come back from the darkness and see again their life from the prism of positivity sans losing pragmatism. The intention is to create an ambience of opportunities in the network competent enough to absorb and offer a chance of a new lease of life to those looking to re-frame their careers and have the skill-set and willpower for the same.

la vafara
